Subject: EPA To Be in Susquehanna Co PA 8/16/11???Rumor or true?

Dear Mr Garvin,

Thank you again for your letter responding to my request for an EPA hosted Susquehanna County River Basin Forum and for small town hall meeings with EPA representatives with residents directly impacted by shale gas extraction via water, air etc. I have been in touch with Trish Taylor and I thank you for her contact information.

I called your office today as I have heard a rumor "EPA will be in Susquehanna CO August 16, 2011". Is this true? If so, what is the nature of your visit? My friend called me this morning to tell me he had been contacted by Michael Lebron, who used to work with Attorney Leslie Lewis when she was representing the Dimock plaintiffs in their federal lawsuit against Cabot Oil and Gas. Mr Lebron is a resident of NYC, of the Delaware Watershed. Michael Lebron said he is working with EPA to put together a list of Susquehanna CO residents to have their water tested by EPA.

If EPA is looking for water wells for your case study in my county, Susquehanna, I would suggest you work with residenst of the county who are in the field and knows what is happening on the ground. Ideally perhaps the Duke University research team might be able to share their list of water well owners in drill zones participating in their longterm study of water wells in drill zones. Perhaps EPA could contact Duke who could get permission from participants in their study to be in EPA's case study. Please let me know if I can assist in any way as a resident of Susquehanna County, and a participant in the Duke study.

Sincerely,

Rebecca Roter
